

Preferred Master Plan | BEATON HILL PARK

The preferred master plan for **Beaton Hill Park** is designed to highlight the expansive view from the north end of the park and create a unique and accessible experience moving through the park. In addition to trails, picnic areas and gathering areas, proposed park improvements include:

- Parking lots on site (44 stalls total)
- P-patch with seating and tool shed (40 plots)
- Pickleball (4 courts with lighting)
- Off-leash dog park (separate areas for small & large dogs)
- Accessible hillside play area
- Interpretive signage to highlight the natural environment and/or history of the site
- Wetland boardwalk and overlooks

Parking on SE 8th Street would be reconfigured to back-in angled parking to create safer traffic flow and allow the parking lot at Beaton Hill Park to serve as the natural turn-around for vehicles coming to and from the parks.

Hillside Play

Integrates plays features into the hillside with a combination of natural and structured elements.

Whimsical Elements

Sculptural elements that provide a sense of discovery throughout the parks; may be along trails or set apart in the landscape.

Dog Park

Separate areas for large dogs and small (or shy) dogs. Drinking water, seating areas, accessible path and a covered picnic area are also included.

Wetland Boardwalk

Provides connection and overlooks into the restored wetland with informational signage for education and discovery.

P-Patch

Enclosed garden plots and shared garden areas for the community to use, learn from and connect with each other.

Pickleball

Four pickleball courts with lighting and benches on both sides for those who are resting or waiting for a court.
